Professional Summary

Aspiring Software Engineer and BCA student with a strong interest in software development, programming, and web technologies. Familiar with C, C++, Java, Python, HTML, CSS, and JavaScript through academic learning and personal projects. Passionate about building practical applications, improving problem-solving abilities, and continuously learning modern technologies. Seeking opportunities to gain hands-on experience and develop the technical skills required for a successful career in software engineering.

Education

Bachelor of Computer Applications (BCA) , <i>Islamia Degree College, Deoband</i> Affiliated by Maa Shakumbhari University, Saharanpur	2025 – 2028 Deoband, Saharanpur
Higher Secondary School (Class XII) , <i>Unique Inter College, Khampur</i> U.P. Board	2024 – 2025 Khampur, Muzaffarnagar
Secondary School (Class X) , <i>Unique Inter College, Khampur</i> U.P. Board	2022 – 2023 Khampur, Muzaffarnagar

Technical Skills

Programming Languages

- C
- C++
- Java
- Python

Core Concepts

- Object-Oriented Programming (OOPs)
- Basic Data Structures
- Problem Solving
- Basic Algorithms

Web Development

- HTML5
- CSS3
- JavaScript

Tools & Platforms

- Visual Studio Code
- Git
- GitHub
- GitHub Pages
- MS Office

Projects

Personal Portfolio Website, Tech Stack: HTML5, CSS3, JavaScript

- Designed and developed a fully responsive personal portfolio website to showcase skills, projects, and academic background.
- Created dedicated sections for About Me, Skills, Projects, and Contact Information to present a professional online profile.
- Implemented smooth navigation, responsive layouts, and interactive user interface elements using JavaScript.
- Integrated GitHub, LinkedIn, and other professional links for easy accessibility.

- Deployed and maintained the website using GitHub Pages.

AuthFlow – Student Authentication Portal, *Tech Stack: HTML, CSS, JavaScript, Local Storage*

- Developed a responsive authentication portal using HTML, CSS and JavaScript.
- Implemented user registration and login functionality with form validation.
- Added password visibility toggle, loading states and responsive design.
- Utilized Local Storage to simulate user data management and authentication workflow.

ACTIVITIES & INTERESTS

- Regularly practice programming and software development concepts.
- Build personal projects to strengthen coding and problem-solving skills.
- Explore software engineering, web development, and emerging technologies.
- Maintain and update coding projects through GitHub.
